ABOUT ME

Senior full-stack software engineer with 10 years of experience shipping production web, desktop, and 3D applications for international teams across Switzerland, Australia, and Spain.

Core stack is React, Next.js, and TypeScript on the front end with C#/.NET and Node.js (NestJS) on the back end, grounded in Domain-Driven Design, Clean Architecture, and Vertical Slice.

Track record of leading multinational teams, owning CI/CD and data migrations, mentoring engineers, and delivering maintainable, well-tested systems.

EXPERIENCE

Avillanosa Information Technology Solutions (itsavillanosa.com), Founder / Principal Software Engineer Puerto Princesa City, Palawan, Philippines

May 2026 – present
2 months

- Founded and operate an independent IT solutions firm delivering custom software to local and offshore clients
- Design and ship multi-tenant, SaaS-style web applications end to end – architecture, full-stack development, and deployment
- Engage directly with clients to translate business requirements into scalable, maintainable systems
- Bill B2B as an independent senior contractor with availability across AU/NZ business hours

Cabinets by Computer, Senior Front-End Developer (3D / WebGL)

Connewarre, Victoria, Australia

Nov 2024 – Nov 2025
1 year 1 month

- Built and shipped production 3D product visualization using Three.js / WebGL for an Australian product team
- Delivered performant, photo-realistic visual implementations in the browser
- Developed internal automation and tooling that streamlined the design-to-production workflow
- Mentored developers on 3D graphics and front-end best practices

Amihan Solutions / Medgate Switzerland, Senior Software Developer (Frontend)

Rafz, Zurich, Switzerland
Nov 2023 – Oct 2024

1 year

- Delivered frontend features and internal tooling for a Swiss telemedicine platform
- Led investigations, code reviews, and refactors to improve code quality and maintainability
- Prepared and delivered technical presentations to stakeholders
- Worked async with a distributed European team

Palawan Group of Companies, Software Engineering Consultant ◦ Researched and modernized legacy systems ◦ Provided architectural and technical guidance to engineering teams ◦ Performed code reviews and performance optimizations	Puerto Princesa, Philippines June 2023 – Apr 2024 11 months
Yondu, Inc. / Morphsys Inc & Applus+, Lead Senior Software Engineer (Full Stack) ◦ Led multinational development teams across Manila and Barcelona ◦ Designed scalable system architectures and established Git and CI/CD workflows ◦ Owned data migrations and production deployments ◦ Authored technical documentation and user manuals ◦ Mentored engineers and optimized team processes	Taguig, Philippines / Barcelona, Spain Mar 2022 – Aug 2023 1 year 6 months
Palawan Express Pera Padala, Software Engineer ◦ Developed web services using Clean Architecture for a national remittance network ◦ Built integrations spanning desktop and web applications ◦ Wrote documentation, unit tests, and deployment guides ◦ Supervised tasks and optimized delivery workflows	Puerto Princesa City, Philippines Mar 2018 – Mar 2022 4 years 1 month
International Payments Processing, Inc., Programmer ◦ Built data extraction and reporting tools ◦ Developed automation for email workflows ◦ Created inventory and reconciliation tools	Puerto Princesa City, Philippines May 2016 – Feb 2018 1 year 10 months
City Government of Puerto Princesa, Tech Support ◦ Maintained hardware and network infrastructure ◦ Installed cabling, access points, and printers	Puerto Princesa City, Philippines Oct 2015 – Mar 2016 6 months

EDUCATION

Bachelors - Palawan State University, Information Technology	Puerto Princesa City, Philippines June 2011 – Apr 2016
---	---

CERTIFICATIONS

NobleProg - Systems and Service Architecture: Systems and Service Architecture
Skillsoft - Artificial Intelligence and Machine Learning: Credential ID 163182120
Skillsoft - Generative AI and Its Impact to Everyday Business: Credential ID 163192919
Skillsoft - Introduction to Claude Projects: Credential ID 181003235

SKILLS

Programming Languages: TypeScript, JavaScript, C#

Frontend Development: Frameworks & Libraries: React, Next.js, Create-React-App, Vite React Styling: CSS, Sass, Bootstrap, Material UI, Kendo React, Tailwind CSS State Management: React Redux, Zustand Data Visualization: D3.js, Three.js API: GraphQL, Rest UI Testing: storybook

Desktop: Runtime: .NET Framework, .NET Core Frameworks: WPF, WinForms Design Patterns: MVVM, IoC, Observer, Facade, Factory

Mobile Development: Ionic React, React Native

AI Tools & Assistants: Claude, Claude Code, OpenCLAW

Low-Code Development: OutSystems Platform (Knowledge of fundamentals and basic implementation, acquired through self-study)

Backend Development: .NET Runtime: C#, ASP.NET Core, ASP.NET Framework Node.js Runtime: TypeScript, JavaScript, Express.js, NestJS ORM: Dapper, Entity Framework Core, TypeORM, Knex.js Documentation: Swagger Testing: xUnit, Jest

Identity & Access Management: Auth0, Keycloak, Azure AD

Database: MySQL, MSSQL

Cloud & Platform Services: PaaS: Azure, Netlify, Vercel Cloud Services: Azure AD, Azure DevOps, Azure Pipeline

DevOps: Containerization: Docker, Docker Compose CI/CD: Jenkins, Azure Pipeline, Azure DevOps, GitHub Workflows Version Control: Git, GitLab, GitHub

Automation: Testing: Selenium, Selenium Grid Remote Access: noVNC

Ways of working: Architecture Patterns: Domain-Driven Design (DDD), Clean Architecture, Vertical Slice Architecture Design Patterns: MVC, IoC, Observer, Facade, Factory, MVVM Methodologies: Agile Scrum, Kanban

Development Tools: API Documentation: Swagger Diagramming: Camunda Modeler (BPMN), XMind (mindmaps), draw.io (ERD, comprehensive diagrams) Communication: Slack, MS Teams Project Management: OpenProject, Trello, Jira
